

International Council of
the Aeronautical Sciences

ICAS 2026 General Lecture Nomination Form

Title:

Topic Area (please see the list of topics below):

Nominee(s)

Name/Title/Organization:

E-mail:

Nominator

Name/Title/Organization:

E-mail:

Topic Areas for ICAS 2022:

1. Aircraft Design and Integrated Systems

1.1 Aircraft Design and Integrated System (Basics and Theory)

1.2 Aircraft Design and Integrated System (Applications)

2. Systems Engineering and Integration

3. Aerodynamics

3.1. Aerodynamics – CFD Methods and Validation

3.2. Experimental Aerodynamics

3.3. Basic Fluid Dynamics and Flow Control

3.4. Applied Aerodynamics

4. Materials and Structures

4.1. Aerospace Grade Materials, Structural Analysis, Fatigue and Damage Tolerance

4.2. Aerostructures Design, Structural Dynamics,

5. Propulsion and Energy

6. Flight Dynamics and Control

6.1. Flight Dynamics and Control (Control and Modelling)

6.2. Flight Dynamics and Control (UAV Related)

7. Systems, Subsystems and Equipment

8. Manufacturing and Supply Chain Management

9. Air Transport System Efficiency

10. Safety and Security

11. Operations and Sustainment

12. Education and Training
